QUESTIONS

Q1

Palindrome number/string

10 marks

**Q2**

First n perfect numbers

10 marks

**Q3**

Decimal number equivalent to binary number and octal number

10 marks

**Q4**

Nth max number and nth min number in array then sum of it and difference of it

10 marks

**Q5**

Find the average positive and negative numbers upto -1

10 marks

**Q6**

Removing duplicates in array

10 marks

**Q7**

Matrix multiplication

10 marks

Q1 Palindrome number/string

10 marks

Palindrome number/string

Your Code

```
1 import java.util.*;
2 public class Main {
3     public static void main(String[] arg
4         Scanner sc = new Scanner(System.
5         int n = sc.nextInt();
6         int temp = n, rev = 0;
7
8         while (n > 0) {
9             rev = rev * 10 + n % 10;
10            n = n / 10;
11        }
12
13        if (temp == rev)
14            System.out.println("Palindrc
15        else
16            System.out.println("Not Pali
17    }
18 }
```

Input

121

7/7 answered

Output

Palindrome
